Side Car/Trailer Use on All BMW Motorcycles from 1969
to Present

Information: From time to time we receive inquiries from BMW owners and press writers concerning the use of a side car or trailer attached to a BMW motorcycle.

Reminder: Please remind your customers that BMW specifically warns against the use of accessories not approved by BMW.

Our motorcycles are not designed for adding a side car and/or trailer. Installation of a side car and/or trailer will have severe negative influence on the stability of the motorcycle at any speed and will affect the riding safety.

For extra luggage need, BMW offers such accessories as saddlebags, luggage carriers, tankbags, etc.

Please refer the customer to the rider's manual for the information regarding

- maximum load per saddlebag;
- maximum load on the luggage carrier;
- maximum speed when saddlebags and/or luggage carrier are installed.

Please
inform each
customer:

Any failure or damage attributable to use of a side car or trailer will not be covered under warranty.

Very truly yours,

BMW OF NORTH AMERICA, INC.
