## Brake Pipe Recall - Advance Information

BMW of North America, Inc. will announce a Recall which will affect a relatively small number of 1987 and 1988 R80RT's, R100RT's, and R100RS's (only 1,123 motorcycles). The VIN range and model years will be described in a subsequent Service Information bulletin and will describe in detail the repair procedures.

You may wish to order, through normal parts channels, the following kit:

**Part No. 34 32 9 062 451**

Because of the small number of motorcycles involved, please initially order only one or two kits.

Once we are assigned the official Recall number by the National Highway Traffic Safety Administration, we will release additional information to you via a Service Information bulletin and affected customers will be informed by First Class mail.

Very truly yours,

BMW of North America, Inc.

Frank Stevens  
National Service Manager

Richard Dampf  
National Technical Manager
