RE: R80GS WORKSHOP MANUAL

Dear Dealer:

The introduction of the R80GS microfiche has proven that workshop manuals in this format are a valuable aid to a technician.

This method of distribution and reading has been adopted for all new manuals.

Ease of handling and a simple exchange of new microfiche for old when a supplement is issued are good reasons for preferring the microfiche.

Nevertheless, there has been a limited demand for workshop manuals in paper form (book). We have, therefore, decided to offer versions of this manual on paper.

Paper copies of the above manual in book form can be ordered through normal parts channels under part No. 01 57 9 798 357.

Please note, however, that no updating will be provided for these manuals.

Sincerely,

BMW OF NORTH AMERICA, INC.
