Information Microfiche

Attached find an up-dated Service Information microfiche
dated 08/84.

On Page 1 of this fiche you will find our new tool catalog,
which describes each tool use and, in some cases, lists part
numbers for replacement parts. For parts ordering, use
"88 88 6" in front of each tool number.

This new catalog will replace the white tool catalog you have
been using.

The white special tool catalog will no longer be up-dated,
but could be used for reference.

This new microfiche includes all Service Informations (paper
format) from 1977.

Sincerely,
